Why Ambica

Built for businesses that actually care.

100% bagasse

No PFAS, no plastic film, no wax. The full plate is pulp.

Oil & water resistant

Holds curry, biryani, broth — for hours, not minutes.

Export-ready

FSC, BRC and BSCI documentation packaged with every order.

Food-grade certified

FDA + FSSAI tested. Microwave-safe to 140°C, freezer-safe to -20°C.

Composts in 60 days

In a home compost. Industrial conditions cut that in half.

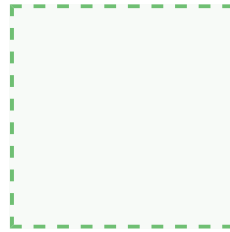

MOQ that makes sense

Start at 5,000 units. Scale up on the same SKU.

Let's Build a Sustainable Future Together

Tell us your volumes and requirements — we'll get back with
pricing, lead times and samples.
